Course Description

Contemporary World is a course now required by the new Quebec Education Program for Cycle 2 Year 3 (grade 11).

The educational aims of this course are to help students understand the nature of the relationships that form among societies and the way in which these relationships shape the organization of the world today. Students will be encouraged to become aware of their role in society and of their responsibilities as citizens. The program will help students to become critically aware and open to diversity and to bring them into contact with a range of viewpoints regarding environment, population, power, wealth, tensions and conflicts. Throughout the year, students will be expected to critically assess themselves.

Course Objectives

In addition to introductory facts, this course will focus on three themes:

- Unit 0: Introduction (world geography, political ideologies, macroeconomics)
- Unit 2: Population and migration
- Unit 4: Disparity (inequality or differences) of wealth
- Unit 5: Intervention in zones of tension and conflict

Although no longer prescribed by the Basic School Regulations, this course will attempt to develop the following two competencies.

Competency 1, Interpretation: Interprets a contemporary world problem

Students will define and analyze specific issues, find answers to questions, explain and make sense of them.

Competency 2, Position: Takes a position on a contemporary world issue

Students will examine some points of view on specific issues, consider the media treatment of these issues, debate the issues and consider opportunities for social action.

Textbooks and Resource Materials

Brodeur-Girard, S. et al. Immediate: Contemporary World. Laval, QC: Éditions Grand Duc. ISBN 978-2-7655-0380-4, 2010.

- ♦ Learning and Evaluation Situations (LES);
- ♦ Oral presentations;
- ♦ Participation;
- ♦ Projects;
- ♦ Mid-year exam; and
- ♦ End-of-year exam.

Extra Assistance

If you have any problems, questions, or concerns, please feel free to ask. Extra assistance is always available upon request. Don't be shy to ask for help!

Cheating and Plagiarism

Cheating refers to any dishonest or deceptive practice. Plagiarism is a form of cheating in which part or all of someone else's work is passed as one's own. For useful guidelines to help you avoid plagiarism, consult the following document:

<https://www.uottawa.ca/about/sites/www.uottawa.ca/about/files/plagiarism.pdf>

Penalties for cheating or plagiarism may include a mark of zero for the assignment, E.S., exam, L.E.S., project, test or the course. It may result in my reporting your case to the Vice-Principal and/or Principal for further steps to be taken at their discretion.
